INTRODUCTION

HIDIG GENERAL TRADING & LOGISTIC COMPANY is a registered and founded in 2003 in Somalia Gedo Region Bardera District. Which is owned and managed by Engineers and business Professionals and has many years of experience in Business products & Logistic Services.

HIDIG GENERAL TRADING & LOGISTIC COMPANY a successful trading house and logistic with extensive experience acquired over the years is supplemented by reliable supply sources and trustworthy customer base to meet the challenge of the current business contests.

We, with extensive experience gained many years, initially opened as an exclusive sourcing outlet for, Industrial Filtration, Auto Spare Parts, and Building Material & Equipments, Chemicals & Electro-Mechanical Equipment & food industrials etc.

HIDIG GENERAL TRADING & LOGISTIC COMPANY has now entered into a diverse array of activities in addition to the conventional import-export trade. Quality products at competitive prices, backed up by exceptional customer service. Our success is inextricably linked to our professional and technical capabilities and to our team of highly committed, skilled and trained staff. In addition, we have strong support of our supplier and manufacturers from USA, Taiwan & China who give us access to the wealth of knowledge and products. We guarantee quality products and provide the best support available in the market.

HIDIG GENERAL TRADING & LOGISTIC COMPANY has been providing International Procurement Services and Logistic to Somalia, since 2003. Since then **HIDIG CO.** has pushed the boundaries of concept of Better – Faster – Cheaper. One thing that is apparent in our work ethic is quality. Since this is a service based industry, we realize that the quality of our services coupled with outstanding saving brought to clients ensures us as the best bet in International procurement.

HIDIG CO. provides the right solution to simplify and reduce expenditures relating to small amount ordering and procurement services. **HIDIG CO.** works with supplying products from Europe (United Kingdom, Germany, Italy, France, Switzerland, United States, Japan, China and India).

HIDIG CO. services will allow you to reduce the purchasing, transport and import costs, while simplifying the procurement process.

Usually the procurement products from the overseas is characterized by extremes: High transaction volume, High Labour cost per transaction, large supply base, low transaction values, low service levels and low inventory turns. We access customer needs regarding product quality, prices, punctuality and safety of delivery to further enhance customer satisfaction. Using superior buying power to negotiate with their suppliers **HIDIG CO.** clients specific needs are satisfied at the lowest possible prices and at the best terms. **HIDIG CO.** has developed a range of services to support your purchasing department with any procurement tasks.

This includes:

- Decrease Supply bases
- Reduce Inventory and Material Costs
- Reduce Purchasing, Accounting and Administrative Labour
- Freight, Transport and import Costs Reduction
- Direct Access to products Services and commercial terms Worldwide
- Implication and Autoimmunization of the purchasing process
- International Access to Business Opportunities
- Increased Competitiveness

We supply General Constructions, food and Equipments to Various places in Somalia:

- Food Commodities
- Cement bags
- Iron and Steels
- Power and Electrical
- Water

- prepayment of duties on bonded goods to avoid delays in clearance when cargo is urgently required.
- greater product variety and availability by warehousing

HIDIG GENERAL TRADING & LOGISTIC CO. supports the universal principles of the United Nations Global Compact which is a strategic policy initiative for business corporate and social responsibility and aligns day to today and strategic operations in our business operations , strategies , actions implementations and compliance adhering with the following universal principles effectively and efficiently.

HUMAN RIGHTS

1. Businesses should support and respect the protection of internationally proclaimed human rights; and make sure that they are not complicit in human rights abuses.

LABOUR

2. Businesses should uphold the freedom of association and the Effective recognition of the right to collective bargaining; the elimination of all forms of forced and compulsory labour; the effective abolition of child labour; and the elimination of discrimination in respect of employment and occupation.

ENVIRONMENT

3. Businesses should support a precautionary approach to environmental challenges; undertake initiatives to promote greater environmental responsibility; and encourage the development and diffusion of environmentally Friendly technologies.

ANTI-CORRUPTION

4. Businesses should work against corruption in all its forms, including extortion and bribery.

Hidig embraces and supports these principles and strives to integrate them into policy, Strategy and business action practices and day to day activities and accomplishments of tasks and responsibilities across the operation and with our staff , clients and stake holders .

ENVIRONMENT

We very much acknowledge that our activities have the potential to Hence aim to improve continuously all environmental aspects of our business operation. In addition to using resources wisely, we strive to minimize any negative environmental Impacts that could be caused by our business activities. We focus our environmental efforts on activities that we believe have the greatest impact. Today we work on an overall level in major areas such as reducing Carbon dioxide emissions, using alternative energy Sources, managing waste water, and reducing Energy consumption We moved forward and ahead in comparison with year, company is investing and marketing alternative modern high energy efficient products , goods and services e.g. solar lights and installation systems introductory

Transportation

The impact exerted on the environment as a result of Transport activities related to our operations cannot be overlooked and therefore Smart route planning, full utilization of the volume capacity in a trailer as well as the filling with the right weight of goods is the most effective weapon to reduce the environmental impact and cost of transport, in time transport reserving

Characteristics of Import and Export Operation Section

We provide optimal services in response to every need of import/export handling for LCL cargoes, FCL cargoes or cargoes for roll-on/roll-off ships including the application procedures to the authorities concerned.

1. Operations according to the cargoes from pick-up to carry-in, packing and loading onto ships. Overseas operations from import customs clearance to the installation at factories
 2. Unloading of heavy cargoes onto barges or domestic ships, and arranging marine cranes for such unloading operations. Arranging application to the customs.
 3. Arranging necessary procedures including inspection for loading hazardous cargoes onto ships
 4. Delivery preparation in accordance with the characteristics of import cargoes
- We also respond to other requirements of customers speedily and exactly.

Characteristics of Customs Clearance Section we perform customs clearance jobs speedily and exactly in response to customers' various needs. For export, we deal with customs clearance jobs smoothly for all cargoes from food stuff to construction machinery, special machinery and general-purpose machinery. And for import, using our wide experiences in customs clearance jobs for clothing articles, large special machinery and privately-owned automobiles, and using the systems of tax reduction

and exemption we respond to customers' needs and deliver the cargoes to the designated places.

Characteristics of Port Transport & Mechanical Engineering Team We store and manage important cargoes entrusted to us by our customers in the bonded storage field approved by the customs. After the customs clearance, using large and small handling machines we conduct safety-first operations such as truck loading/offloading, container stuffing/unstuffing and barge loading/discharging in accordance with the shapes and characteristics of cargoes.
